 Charlie Gorton was present at the meeting. Cllr Barker had spoken to Oliver Letwin MP about the problems with the outreach post office service. Mr Letwin is prepared to look into the situation once he is made fully aware of the issues that need to be resolved. Mr Gorton also raised concerns about the current state of a public footpath off of Rew Lane, which is very overgrown and impassable. It was suggested that Cllr White, as the footpath officer, would be the best person to speak to. Mr Graham House was at the meeting to discuss his planning application, item 5.3. Mr House explained that the only change from the planning application submitted last year, is the addition of a flood storage pond and balancing pond. The Councillors had no objections to the ponds. Several residents attended the meeting to raise concerns about the planning application for the waterwheel at Court Farm, item 5.4. The main concerns were the protection of the downstream properties from flooding, the materials to be used to form the flood attenuation bank and to raise the level of the ponds and the proximity of the flood bank to neighbouring properties. Also the effect on the landscape and the flow of the stream were discussed. The councillors agreed that it was very important that the flood attenuation bank should be constructed and approved before commencing any other works. Parish Clerk to submit comments raising these concerns. Minutes of Last Meeting held 18th January: Passed Agreed & Signed Planning Applications: 1/D/10/001170 Land at Tiley Knapp, Middlemarsh Single storey barn Letter and Approval of Planning Permission 1/D/10/002044 The Manor House, Buckland Newton 	2.
